REAL-WORLD OPPORTUNITIES

Benilde-St.Margaret's

BSM's EPIC Partnership Program provides a wide range of professional learning opportunities for students.

EPIC at BSM

Explore. Partner. Inspire. Connect.

EPIC is BSM's Professional Partnership Program that allows students to EXPLORE passions and career paths, PARTNER with professionals, gain INSPIRATION, and CONNECT with experts in various fields inside and outside the four walls of the classroom.

EPIC Internships

Students gain direct experience working in the field both internally at BSM and externally. These are multi-day or multi-week experiences where the student brings authentic value to the company or organization. Meanwhile, the student is getting a deep dive into fields of interest.

EPIC Job Shadows & Site Visits

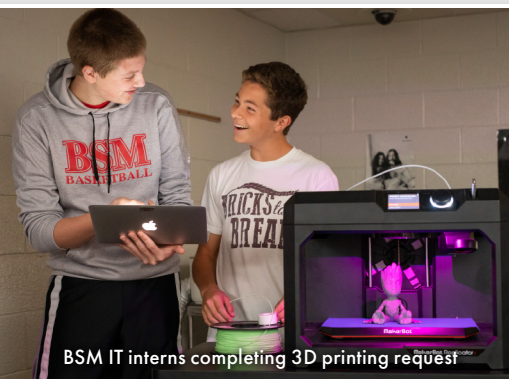

Students explore a company or organization up close. These experiences may involve several students and employees. Generally, these experiences are 2-6 hours on a single day.

EPIC Events

Students attend events designed to help them explore passions and learn more about particular occupations or vocations. These are single day events either on campus or off campus.

EPIC Mentorships & Classroom Engagements

Students gain insights and mentoring from external partners while working on specific classroom projects. This could include visits to the classroom or a mentoring relationship via phone, email, or video conferencing.
