

COVID PROTOCOLS EFFECTIVE JAN. 7, 2022

Dear Red Knights,

Our hope when returning to school Jan. 3, 2022 was to return to our initial COVID-19 protocols and effectively manage COVID-19 cases at BSM in the same way we were able to in the fall. Unfortunately, we have experienced a large number of positive cases among our student body, which has posed real challenges within our system.

Given our current circumstances we will be requiring masks for students, staff, and visitors on campus during the school day beginning Friday, Jan. 7. Please remember to bring a mask from home. We will continually examine our school data and reassess protocols once we reach lower case numbers.

It is our hope that returning to required masking for a time will help us better manage COVID-19 cases in our school as well as allow us to release the pressure on our already strained resources. As always, we will continue to assess the effectiveness of our protocols as we work to return to a more "normal" school experience. We will continue to communicate with you when we make changes to our approach in the future.

Thank you again for your understanding and willingness to be flexible as we navigate the ever-changing landscape of this pandemic.

Dr. Ehrmantraut, President
