Dear BSM Community:

On behalf of the BSM Board of Directors, thank you to all who completed the recent survey and participated in feedback sessions as we search for the next president for Benilde-St. Margaret's. Your insights and feedback are critical to finding the right candidate, and we are grateful that you took the time to share your perspectives.

The survey had broad community participation with 751 unique respondents. We also were pleased to review the hundreds of comments provided via the open-ended questions, which helped to provide important context and explanation of the survey data from the diverse perspectives across our BSM community. In addition to the survey, over 100 people representing various constituent groups — including BSM leadership, parents, past parents, staff, faculty, and alumni — took part in small-group discussions and focus groups. For a summary of the insights and data collected, please visit the [President Search page](#) of the BSM website.

Based on this community input, our external search firm, Carney Sandoe & Associates, created a "[position profile](#)." The profile is being shared with potential candidates as part of the job posting with the intent of providing background information about our school and the role of BSM President.

As for next steps, the Board Search Committee will continue to work with Carney Sandoe to gather applications, screen candidates and start the interview process. We will keep you updated as we progress, and continue to welcome your prayers for a successful search.

*Laura Portz, Chair, BSM Board of Directors*

*Biz McShane, Search Committee Lead*
